The conference is organised by the Government of Hungary. HEPA, the Hungarian Export Promotion Agency, is co-organiser of the event.

The **Budapest Water Summit 2019** aims to promote solutions that tackle the problems of the emerging water crises we have to face, building around the issues of abundant, scarce and polluted water, while the three-day **Expo** is intended to focus on sustainable, innovative, environment –friendly solutions in the field of drinking water production, water treatment, water supply and water resources management.
