

Telecommunication services connecting the world

Offering wholesale voice and messaging solutions for every player in the telecommunication sector.

ABOUT US

Comnica is Hungary's leading voice wholesale service provider active in 40+ countries all over the world.

We connect 100+ local and international networks and manage 300+ million minutes of traffic in a year.

Our mission is to help telco carriers, vendors, cable and internet companies to provide reliable telecommunication solutions for their customers.

With our physically distributed, multi-redundant infrastructure we are channeled to the key local and regional data exchange centers. Our voice services are of outstanding quality with above the industry average SLA.

WHOLESALE VOICE

Comnica SIP Trunking

High quality call termination services.

Your calls can be transmitted to anywhere in the world with the help of our local and international carrier partners.

Comnica Direct Inward Dialing

Excellent audio quality, unrestricted capacity.

With our DID service, we can provide normal rate, toll-free (green) or premium numbers in 140+ countries.

Comnica SMS

A2P messaging at competitive prices.

We guarantee the best quality and prices by accessing all major regional mobile providers directly on our network.

Comnica Domestic Voice
