The Hungarian health care industry

In the field of health industry Hungary has great knowledge and experience. This is one of the leading sector of the national economy which is mainly represented by the pharmaceutical companies and the producers of medical devices. The health industry shares with 6% from the GDP, it has significant role in the exporting activity so has a great economic effect. Ten percent of the employees are working in this sector and due to the high development of the international healthcare market potential a further growth of employment can be achieved. The health industry related service providers and producers have a great significance in the national economy.

What can Hungarian National Trading House (MNKH) Cls. offer on the foreign markets:

- Medical instruments and apparatus
- Pharmaceuticals and medical products
- Health care services
- Built on technology, real estate development and investment
- IT support
- Education
- Development of health care system

In this industry, we can face new business opportunities. The health industry is an emerging and a worldwide highly esteemed market, where the professional partners of Hungarian National Trading House can appear as successful participants.

About Hungarian National Trading House

The **Hungarian National Trading House Cls. (MNKH)** was established in 2013 by the Hungarian Government and the Hungarian Chamber of Commerce and Industry. As part of the new foreign trade strategy „Opening to the East”, the Hungarian National Trading House seeks new markets and new opportunities for the Hungarian companies.

The activities are built up by two main pillars: filtering the markets and searching for Hungarian companies whose products and services could be competitive on foreign markets while measuring market requirements through Local Trading Houses.

The Hungarian National Trading House offers its partners complex services and supports them in exploring and advertising – from initial offers to the contracting stages – as well as helping its clients in channelling international development projects. To achieve full commercial visibility and reliability for our Hungarian and foreign trade partners, MNKH offers a variety of contracting forms ranging from simple legal and financial consultation, through deal negotiation to final trade transactions.

Sectors

Hungarian National Trading House represents high quality, exportable and competitive products and services focusing mainly on the industries stated below:

MNKH provides a full range of services including:

- Representing of high quality and competitive products from Hungary
- Integration of complex services of Hungarian companies' know-how value
- Managing of foreign trade transactions
- Complete services from initial offers to the contracting stages based on customer needs
- Follow-up on business
- Representative offices in foreign markets - network expansion

Local Trading Houses

At the end of the year 2014 Hungarian Trading Houses has been opened in 25 countries and we are planning further expansion.

- Middle East
- Asia: Southeastern Asia, Eastern Asia
- Africa: Northern Africa, Sub-Saharan Africa, Southern Africa
- Latin America
- Russia, CIS countries
- Western Balkan
- Central Europe

Control-X Medical Ltd

About us

Control-X Medical was founded in 1990, and has been operating in the medical and hospital equipment sector supplying complete systems, components, and turn-key set-ups for clinics, hospitals and HMOs. Control-X Medical was established to produce **high quality diagnostic equipment** for the medical and veterinary x-ray industry. Our success results from understanding our customers' needs, developing products to meet those needs and providing continued support insuring customer satisfaction.

Products and Services

Radiographic systems:

- Z-Motion Universal Digital U-arm System
- Perform-X HF Radiographic Systems
- Chiropractic Rooms
- Chest rooms

ZooMax Veterinary Systems:

- Basic veterinary Set-Up
- Advanced Veterinary Set-up
- Elevating table with Ceiling Tube Mount

Major systems components

Medical film processors

Pharma

HandInScan Ltd.

About us

HandInScan was formed in 2012 as a spin-off of the Budapest University of Technology and Economics (BME). Original founders were private individuals from the engineering development team, aiming to create a device to objectively control hand hygiene performance of medical staff.

Products and Services

- Complex solution for objective hand hygiene control
- Hand-in-Scan medical trainer device
- Reporting software
- Accredited training course for hand hygiene including audit of hand disinfection of the staff by usage of hand-scanner

Partner Search

- Technology validation in 3 major EU hospitals (2013–14)
- Large scale training & assessment at NUHS Singapore: 2 x 6000 employees (2011-13)
- Mandatory educational tool at the Semmelweis University M.D. program (since 2012)
- Joint assessment with the Hungarian Epidemiology Center /OEK/ (2014)

Labtech Ltd.

About us

Labtech Ltd. is an innovating Hungarian company established in 1990, developing and manufacturing PC-based ambulatory ECG Holter and Resting and Stress Test Systems. High quality and the satisfaction of our clients are guaranteed by our quality assurance certifications: ISO 9001 and ISO 13485. All our products are CE marked in line with the relevant EU Medical Devices Directive 93/42/EEC.

Products and Services

- Holter ECG system (1-2-3-12 channels holter ecg)
- Stress ECG system (12 channel stress ECG system with treadmill or ergometer)
- Resting ECG system
- Telemedicine ECG system
- Ambulatory Blood Pressure system

References

Most of our sales are directed to foreign countries in cooperation with our distributors.

Export countries: Japan, Germany, France, Turkey, Spain, The Netherlands, Romania, Ukraine, Russia, Iran, Algeria, Poland, Austria, The Philippines, etc.

Medicor Electronics Ltd.

About us

The company, whose operation involved development, manufacturing and trading, played a dominant role in the domestic industry for some 30 years. MEDICOR Művek continued to expand and develop into the 1980s. MEDICOR accounted for more than half of Hungary's medical technology manufacturing and had representation in 35 countries around the world. Some 85 to 90 percent of the production was made for export predominantly to COMECON countries.

Products and Services

- **hospital appliances** (clinical infant incubators, neonatal reanimation and warming tables, blue light lamps, infusion pumps)

Thormed Ltd.

About us

Thormed Ltd. manufactures medical devices. Main products are respiratory, cardiac and cardiac-respiratory diagnostic products.

Products and Services

- **Spirometer** is used to diagnose and monitor asthma, COPD and other respiratory diseases.
- **Ultrasonic Spirometer** is the latest technology in pulmonary function diagnostics with innovative unique like automatic internal calibration, fully waterproof, easy-to-disinfect sensor, and intelligent medical decision support system with human voice interpretation.
- **Wireless, handheld models** for Pharmaceutical Testing or TeleHealth Subsystem and for Home care are also available. The robust PC based SpiroTube Professional spirometer with USB connection or the professional, handheld SpiroDesk with large touchscreen, built in thermoprinter, 12 channels ECG and SPo2 are suitable for the hospitals and private clinics.
- The **ThorSoft spirometry software** runs on PCs, smartphones, tablets, Android and Windows gadgets like Samsung, Nokia and LG.
- The **OTTHON device** can optimize the administration of respiratory drugs, like Salbutamol, Ventolin and other bronchodilator

TensioMed Ltd.

About us

TensioMed Ltd. was founded in 1999 in Hungary. The company is specialized in the research, development and production of advanced medical devices. Our blood pressure measurement based product portfolio covers the whole range of hypertension management and the diagnostics of atherosclerosis with clinically validated and accepted technologies.

Products and Services

- **Arteriograph™:** This innovative device measures all the relevant arterial function parameters such as aortic pulse wave velocity (PWVao), augmentation index (Aix) and central blood pressure (SBPao) values simultaneously with the peripheral blood pressure.
- **Arteriograph24™:** Its unique technology enables this device to measure all arterial function parameters simultaneously for 24 hours.
- **Tensio Day Plus™:** The device can simultaneously determine the peripheral and the central blood pressure by oscillometric method. It opens new perspectives in the monitoring of central systolic blood pressure, which has increasingly important role in cardiovascular diagnostics.

TENSOL Medical Device Developer and Distributor Ltd.

About us

Our company is dealing with developing electrotherapeutic devices for more than 10 years. In this form we are operating since 2003. Our two main goals are: AFFORDABILITY and PROBLEM SOLVING.

That means our goal is to find the way of making expensive medical devices to be affordable for small clinics and home use with CLEVER SOLUTIONS

Products and Services

- **UNITENS MAGNETIC AND ELECTROTHERAPY UNIT:** IT IS A MAGNETIC THERAPY UNIT
- **TENSEL ME 2006 ELECTROTHERAPY UNIT:** UNIQUETIME-SHIFTED OPERATION FOR EXCLUDING MUSCLE SPASTICITY

References

TENSEL ME 2006 UNIT is on the list of the National Health Insurance Fund Administration. (It can be ordered onto hungarian physician's prescription)

LICENCES: MSZ EN ISO 9001:2009, MSZ EN ISO 13485:2012, 11-CE-130423

Dimantec-Medic Ltd.

About us

The **Dimantec-Medic LTD** as a medical device manufacturing company has been aimed at establishing its name by delivering excellent quality products to the market on reasonable price level. Our current Partners confirm the advantages of long term and cost effective usage.

Products and Services

- Dimantec Skin Graft Mesher
- Dimantec Skin Graft Carrier

Hystopathology Ltd.

About us

Histopathology Ltd. is a leader in design, development and production of IVD medical devices, especially histochemical/immunohistochemical reagents which are available worldwide.

Products and Services

The main objective is for us to invent clinical research tools and diagnostic reagents which enable to make histological stains more easily and accurately. Supporting the customers, beside the primary antibodies one of the recently developed innovative product-line is the micro-polymer-based secondary detection systems for immunohistochemistry (HISTOLS® - Product range) supplemented with corresponding chromogens and substrates, tissue microarray technology (TMA) and in-house developed automated immunostainer (DominoStainerTM).

Medimetal Ltd.

About us

The founders of **Medimetal Ltd** – Mr Istvan Antal and Mr Istvan Stefan were the pioneers of trauma implant and instrument development and manufacturing in Hungary, gaining 40 years of experience. Medimetal Ltd has been in operation in its current form since 1993. We use the latest CAD-CAM systems; our manufacturing facility has technology from TORNOS, STAR, and DMG work centers and Monnier-Zahner thread milling machines. The products are made from the highest quality steel and titanium alloys of the leading suppliers (ZAPP and Sandvik).

Products and Services

Medimetal Ltd produces Traumatological implants for bone surgery:

- AO and special bone screws
- Plate systems
- Intramedullary nail systems
- Instrument sets

References

All the finished products go through quality control.

We are aligned with EN ISO 13485:2003, ISO 9001:2008 and the EC Directive 93/94 EEC Medical Devices.

SeqOomics Ltd.

About us

SeqOomics Ltd is an SME established in 2009 by independent scientists to combine their complementary expertise for occupying an empty niche in the Hungarian, Central/Eastern European biotech industry: genomics based biotechnology. (NGS) applications are SeqOomics' top-ranked and most highly demanded services. The company is equipped with Ion Torrent PGM, Illumina MiSEQ and ABI3500 sequencers along with a state-of-the-art molecular biology laboratory in a brand-new facility in Hungary.

Products and Services

- Genome Sequencing Service
- Metagenome Sequencing
- Human Diagnostics
- Animal Health
- Food Safety
- R&D activity

References

Seqomics is an ideal service providing subcontractor (especially in human diagnostics) and research collaboration partner (all kinds of genomics and sequencing-related projects such as innovative plant breeding, diagnostics marker research, etc.).

The image shows a screenshot of the SeqOomics website. At the top, there is a logo with a stylized green 'S' composed of DNA helixes and the text 'SEQOMICS' in green and grey, with the website address 'www.seqomics.hu' in smaller text above it. Below the logo, the tagline 'Your genome decoder' is visible. The main heading 'SEQOMICS' is prominently displayed in large, bold, green and grey letters. To the left of the main heading, there is a vertical column of text: 'Metagenomics', '400bp', 'Biomass', 'Virus', 'Fungi', 'Food safety', 'BRAFV600E', 'SNP', 'GMO detection', 'Bacteria', and 'your words - our job'. To the right of the main heading, there is another vertical column of text: 'Personalized medicine', 'Intron', 'Exon', 'Diagnostics', 'Fermentation', 'Response', 'Coverage', 'Horse Meat', 'Archaea', 'FFPE', 'BRCA', 'Cancer', and 'DNA Copy number'. The background of the page features a faint image of a DNA double helix.

MetriMed Medical Instrument Manufacturing Ltd.

About us

Metrimed Ltd. was established in 1988. It produces and distributes hip, knee and spine prosthesis and special medical devices for human use. The company has a wide experience in research and development in the medical device field. Our results completely show our vision: The improvement of the living standard of those who suffer from various diseases with medical products that operate excellently, safely; widely accessible and applicable. We help people who cure those in need to the best of our ability. Metrimed Ltd is a market leader in the field of hip prosthesis in Hungary. Metrimed Ltd.'s slogan: References of many decades give our value!

Products and Services

- total hip system,
- spine implants,
- knee prosthesis
- instrument sets.

Naturland®

Nidolife Ltd.

About us

Nidolife has been developing and researching unique health products for many years. Our research is focused on natural health products that can help to maintain and increase human health conditions in a gentle way.

Products and Services

- **Cryxon®** is such a complex, digitally controlled device that combines the beneficial effects of crystal, colour and light therapy. It could revolutionize modern medical treatment. There are five different changeable crystal heads (amethyst, citrine, rock crystal, rose quartz and smokey quartz) to go with the lamp and it is able to create the seven colours of our chakra system, therefore it can be used on the whole body. These types of alternative treatments combined in one device have a great impact on the body's self-healing process, it has been long believed to help with a variety of illnesses, dysfunctions, as well as maintaining good health.

References

- Distributed in Hungary, Slovakia, Romania
- All products on the basis of EC Council Directive 93/42/EEC for Medical Devices
- We have ISO 9001:2008 validated Processes for Production and Service Provision.

Propharmatech Ltd.

About us

Our medical innovations laboratory is engaged in the research and development of skin treatment and medication products. Our main aim is to develop and put on the market such products in which we use such commonly known and basically harmless natural agents that are registered in the pharmacopeia and have a substantial background in special literature, and can be effectively applied in everyday use.

Products and Services

- **R47-PROTUMOL® treatment cream** - For patients suffering from cancers of different origin Based on the evidence of clinical tests, the R47-PROTUMOL® treatment cream can very effectively be applied in the treatment of skin and breast cancer. It is proved by data of special literature that the natural active agents of the R47-PROTUMOL® treatment cream contain such ingredients the steady and continuous use of which are proved to have an effect on the human organism to help it counteract cancer, thus reducing the hazard of a cancerous tumour to develop.

UniCorp Biotech Ltd.

About us

UniCorp Biotech Ltd. was founded at the turn of the century in 2000. The owners' desire has been to play a key role in the changing health care system of Europe. At our company we focus on providing quick and easy home diagnostic, such as supplying original, innovative medicines on the Hungarian market.

Products and Services

Our diagnostic products are available on the shelves of pharmacies of countries with a well-developed health care system. The secret behind the widely spread of our tests is that besides being acceptable by professionals as well, these products are not only dedicated for forensic use, but also for non-professionals - their use requires neither a background in health education nor the assistance of someone who does have.

References

We manufacture our home diagnostics in Hungary in the European Union, using high quality CE and FDA approved raw materials from the United States.
