

# Ambulatory Blood Pressure & ECG Monitors

# ABPM-04

**basic ambulatory  
blood pressure monitor**

Record nighttime  
blood pressure and lower  
the chance of a misdiagnosis!

## ABPM-05

### light ambulatory blood pressure monitor

Create an accurate blood pressure profile and avoid the white coat hypertension effect!

ABPM-05 has a sleep-friendly algorithm and it is among the smallest and lightest Holvers on the market.

**card(X)plore**  
multifunctional ABPM  
with a 3-channel Holter ECG

Get the whole picture!  
Since hypertension is the most common risk factor for cardiovascular diseases, it is important to assess blood pressure and ECG data simultaneously.

## apneABP

**multifunctional ABPM  
with OXY (SpO<sub>2</sub>) module**

Identify patients suffering from hypertension and sleep apnea! Obstructive sleep apnea syndrome, a sleep-related breathing disorder, is not only an independent risk factor for hypertension, but it also raises the risk of traffic accidents.

## CardiUP!12

### 3/12-channel Holter ECG

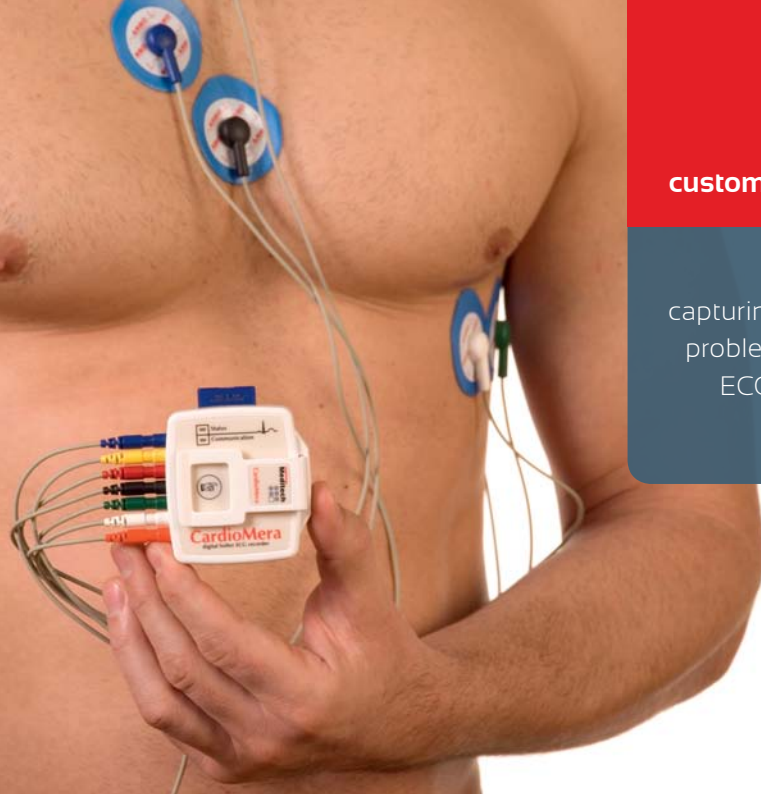

Don't miss a beat!  
Use the classic 12-channel resting  
ECG layout system for a better  
cardiac risk assessment.  
The monitor provides 3-channel  
recordings, as well.

## CardiUP!3

### 3-channel Holter ECG

Record up to 168 hours beat-by-beat ECG on 3 channels and save time with the automatic data analysis of the powerful CardioVisions software.

# CardioMera

Holter ECG with  
customizable channel-layout

Increase the chance of capturing daily occurring cardiac problems, record beat-by-beat ECG on 1, 2, 3 or 5 channels up to 96 hours.

# About Meditech

Meditech has been developing medical grade ambulatory blood pressure monitors, Holter ECGs and software solutions for analyzing the risk factors of cardiovascular diseases since 1990.

Our customers include resellers, medical professionals, researchers and pharmaceutical companies. In a world focused on things, we focus first on people.
