

ALL ABOUT US

Since our founding in 2019, Padel Factory is the turnkey solution for setting up or developing your padel sports club.

Our mission is to enable clubs' business to thrive all round the year, rain or shine, whatever the season.

We manufacture unique padel tents and courts based on individual needs. Our custom designed and built tents can also be used in other sports. Padel Factory is the prime destination for up and coming and developing sports clubs to serve their clientele better.

TENT CONSTRUCTION - ALL SHAPES AND SIZES

Our unique tent construction facility is based on experience drawn from working in many markets and projects.

The padel tents are built according to the latest technology: they are aluminium framed, fully closed with PVC sides, can withstand winds of up to 150km/h and custom sized depending on the number of courts.

Custom made sizes are available upon request!

MAKE THE MOST OF ALL SEASONS WITH OUR UNIQUE TENT

FAST RETURN ON INVESTMENT

Average 2 years

BEST OF ALL SEASONS

Can be used all year round - shade in Summer and warmth and cover in winter

QUICK SETUP GUARANTEED

Standard size tents set up within one month

AMAZING DIMENSIONS

9,5 M indoor height, amazing width and span

TENT SPECIFICATIONS

WINTER (roof and closed side panels):

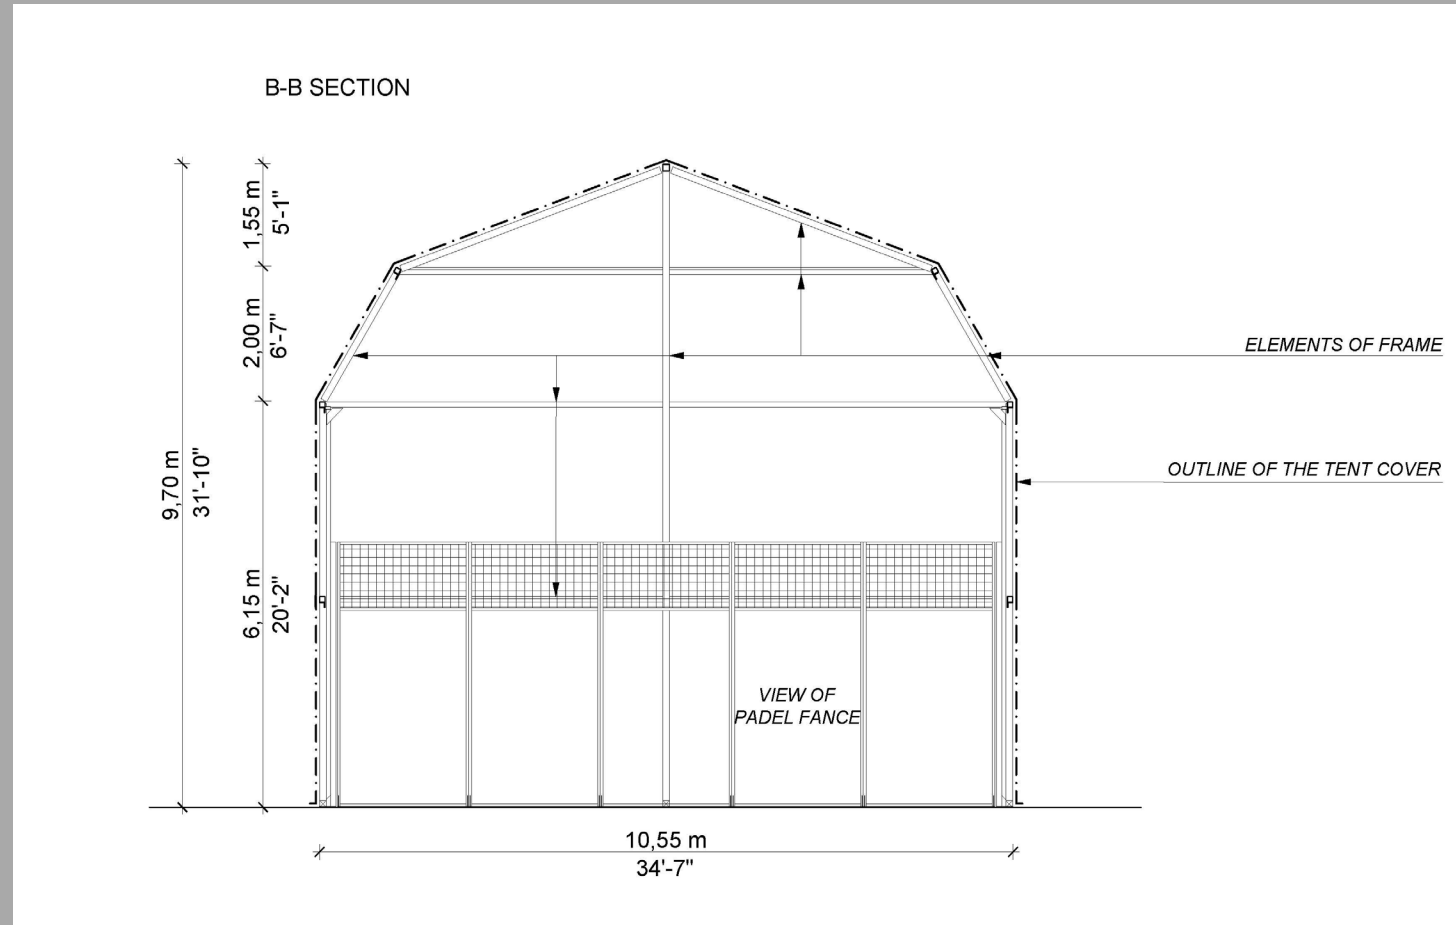

- heatable
- protects from outside cold and weather
- insulates from wind
- can play in rain and snow
- significantly decreases sound in surrounding area
- no humidity

SUMMER (roof only and partly or fully retractable side panels)

- protects from rain
- provides shade but air moves through
- can be fitted with additional shade
- prevents moisture and humidity on colder mornings

STRUCTURE:

- 9,5 m height ideal for great lobs
- unique and original design
- statically built aluminium frame
- small weight, can be built and transported without a crane
- cheaper transportation costs because of weight and max. 6,0 m size of parts
- easy assembly because of structure and weight
- PVC made up of segments for lighter pieces, easier assembly
- PVC guarantee for quality of fabric

PADEL COURTS – ONLY THE BEST

We have used our our extensive experience from Tenerife, Madrid, Budapest and Lisbon to construct courts that stand the test of time. Solid tempered glass, rigid structure, LED lighting.

Experience the exhilarating feeling of playing padel outdoors in the sun. Then cover it up with one of our tents for winter.

COURT SPECIFICATIONS

We have experience with the world's top manufacturing companies and have created our own property as the result.

COURT

Standard dimensions for padel courts

Internal dimensions: 20 m × 10 m

External dimensions: 20.5 m × 10.5 m

Wall type: welded wire mesh over tubular frame, bolted into the concrete surface with expansion anchors

Wall height: 4 m front and back and 3 m sides, except the additional 2 m at the front and back

METAL STRUCTURE S235JR grade steel is used for the entire court.

ZINC / PAINT features

Resin type: Epoxy or TGIC-free polyester

Gloss level: ISO 2813 at 60°

Thickness: 60-90 microns

FASTENERS:

Zinc bolts to join the frames and to attach the frames in the corners of the court.

Zinc nuts to join the frames with 2 mm thick washers and 100 mm long expansion anchors. Stainless steel screws to attach the glass.

GLASS PROPERTIES:

Tempered float glass, 10 mm thick, with polished edges and 6 polished countersunk drill holes for attachment to the metal structure of the court. A total of 100 m² of glass supplied with an EEC certificate.

Density: 150±20 kg/m³

Tensile strength at break: > 450 kPa

Temperature range:

Non-fragility temperature limit: -20 °C

Dimensional stability: +100 °C

Reaction to fire (UNE 23727-90): class M2

PADEL FACTORY
